**Dear Sir/Mdm,**

I am pleased to recommend Vance Ang Heyang for the Media, Arts & Design (S29) at the esteemed Singapore Polytechnic. In my capacity as Vance's English Literature (in 2022 and 2024) and form teacher (in 2022) at Ahmad Ibrahim Secondary School, I can confidently attest to his skills, dedication, and enthusiasm for media and the arts.

In my interactions with Vance, he gets along well with his peers. He makes sincere connections with others and is able to engage people from diverse backgrounds. These attributes will serve him well in the landscape at Singapore Polytechnic, where Vance's congeniality and capacity to collaborate well with others make him a promising candidate. Vance is a team player and an engaging communicator. He is able to articulate his ideas effectively, whether working independently or as part of a team. His ability to listen, provide constructive feedback, and incorporate suggestions makes him a valuable contributor to any creative endeavor. These interpersonal skills, combined with his technical expertise, make him well-suited for your programme.

From our first interaction, it was clear that Vance possesses a unique talent for video editing and writing. His fluency in these areas is evident in the quality Student Initiated Learning (SIL) projects he consistently produces videos over the course of a year in 2020. Whether he is editing a complex video piece or crafting a compelling narrative, Vance demonstrates an impressive ability to express his thoughts clearly and coherently. His attention to detail, creative vision, and audience engagement set him apart from his peers. His videos were well-received that they had collectively garnered 1.4 million views.

One of Vance's most remarkable qualities is his relentless drive to create and innovate. He is not content with simply completing assignments; he continually seeks out new projects and opportunities to expand his skills and knowledge. This proactive approach can be gleaned from the diverse genres he had experimented with on his youtube platform - documentary, gameplay, short form videos - which showcases his versatility and commitment to the field of media, arts, and design.

It truly was a heartening experience to have witnessed Vance's growth over the years at Ahmad Ibrahim Secondary School. With Vance's creativity and ability to think out of the box, he would make an excellent candidate for the Diploma in Media, Arts & Design. Please feel free to contact me if you require any further information or have any questions.

Sincerely,  
Tan Wiphaporn
